مندلی در یک نگاه

- مندلی محصول الزویر است.
- مندلی نرم افزار مدیریت منابع اطلاعاتی (رفرنس ها) و شبکه اجتماعی آکادمیک است.
- این نرم افزار در حال حاضر بیش از شش و نیم میلیون کاربر در سراسر جهان دارد.
- امکان ایجاد حساب کاربری پیوسته را برای محققان فراهم می سازد.
- منابع اطلاعاتی با فرمت پی دی اف وارد مندلی می شوند.
- قابلیت انتقال منابع از سایر نرم افزارهای مدیریت اسناد و منابع را دارد.
- کتابخانه مندلی در یک فضای ابری ذخیره می شود.
- نسخه های مختلف تحت وب، دسکتاپ و تلفن همراه دارد.
- در حال حاضر سیستم های عامل ویندوز، لینوکس و او اس ایکس را پشتیبانی می کند.
- اپلیکیشن کاربردی متناسب با سیستم های عامل اندروید و آی او اس دارد.
- **Social features** مندلی به کاربران اجازه می دهد تا با ساخت پروفایل شخصی با دیگر محققان حوزه پژوهشی خود آشنا شوند و در جریان زمینه های مطالعاتی مهم و جدید قرار گیرند.

نکاتی در مورد حساب کاربری مندلی

- پس از تکمیل ثبت نام لازم است تا ایمیل خود را تایید کنید. این کار باعث می شود تا در صورت فراموشی پسورد بتوانید آن را بازیابی کنید.
- در صورتی که در یکی از محصولات الزویر مانند scopus یا science direct حساب کاربری دارید، اطلاعات همان حساب را وارد کنید. نیازی به ثبت نام مجدد نیست.
- در یک حساب کاربری رایگان امکانات زیر در اختیار کاربر قرار می گیرد:
 - ۲ گیگابایت فضای ذخیره سازی ابری به صورت شخصی
 - امکان ایجاد ۵ گروه محدود (خصوصی) با حداکثر ۲۵ عضو
 - ۱۰۰ مگابایت فضای ذخیره سازی ابری به صورت تیمی
- با خرید **personal storage plan** می توان این امکانات را افزایش داد. این بسته ها تحت عنوان **premium package** از طریق مراکز تحقیقاتی یا کمپانی ها قابل خرید می باشد.

Pick a plan that's right for you.

نمایی از مندلی تحت وب

The screenshot displays the Mendeley Web Library interface. At the top, there's a browser window showing the URL <https://www.mendeley.com/library/>. Below the browser, the Mendeley navigation bar includes links for Feed, Library (selected), Suggest, Stats, Groups, Datasets, Careers, and Funding. A search bar labeled "Library search" and a user profile for "vahide" are also present.

The main content area shows a list of documents under the "MY LIBRARY" section. The list is sorted by "Added (newest)". Each entry includes a checkbox, a star icon, the document title, the author(s), the journal name, and the date added.

Document Title	Author(s)	Journal	Date Added
Fluorescence navigation with indocyanine green for detecting sentinel lymph nodes in breast cancer	Kitai T, Inomoto T, Miwa M, et. al.	Breast cancer (2005)	09/01/16
Randomised controlled trial of conservation therapy for breast cancer: 6-year analysis of the Lancet Breast International Group randomised trial	Forrest A, Stewart H, Everington D, et. al.	The Lancet (1996)	09/01/16
Breast cancer Clinical Practice Guidelines in Oncology	Cancer N	Comprehensive Cancer ... (2003)	09/01/16
Reliability of health information for the public on the World Wide Web: systematic survey of the Internet	Impicciatore P, Pandolfini C, Casella N, et. al.	Bmj (1997)	09/01/16

CLINICAL ETHICS IN PEDIATRIC INTENSIVE CARE UNIT REZA SHIARI	SHIARI R, ABBASI M, HATAMI N, et. al.	(2010)	06/18/16
Genetic susceptibility to juvenile idiopathic arthritis in Iranian children	Shiari R, Farivar S, Hadia E	Pediatric Rheumatology (2011)	06/18/16
A review of clinical and laboratory findings and treatment of Juvenile Idiopathic Arthritis (JIA)	Shiari R, Parvaneh V	Journal of Clinical Excellence (2014)	06/18/16
Association of Benign Joint Hypermobility Syndrome with Mitral Valve Prolapse in Iranian Children	Shiari R, Vaziri F, Javaherizadeh H	HK J Deardistr (new) (2012)	06/18/16

On the left sidebar, under "MY LIBRARY", there are links for "All Documents", "Favorites", "My Publications", "Recently Read", and "Recently Added". Under "FOLDERS", there is a "Create Folder..." button and three existing folders: "database design", "information prescription", and "information quality". At the bottom, there are sections for "GROUPS" and "TRASH".

The right side of the interface shows a large empty space with the text "No document selected". At the bottom right, it says "Mendeley Web Library 25".

The Genotoxic and Cytotoxic Effects of Bisphenol-A (BPA) in MCF-7 Cell Line and Amniocytes

Authors: S. Aghajpour-Mir, E. Zabihi, H. Akhavan-Niaki et al.

 View research catalog entry for this paper

Journal: *INTERNATIONAL JOURNAL OF MOLECULAR AND CELLULAR MEDI...*

Year: 2016

Volume: 5

Issue: 1

Pages: 19-29

Abstract:

Bisphenol-A (BPA) is an industrial xenoestrogen used widely in our living environment. Recently, several studies suggested that BPA has destructive effects on DNA and chromosomes in normal body cells via estrogen receptors (ER). Therefore, BPA could be considered as an important mediator in many diseases such as cancer. However, there are still many controversial issues which need clarification. In this study, we investigated the BPA-induced chromosomal damages in MCF-7 cell line, ER-positive and negative amniocyte cells. Cytotoxicity and genotoxicity effects of BPA were also compared between these three cell groups. Expression of estrogen receptors was determined using immunocytochemistry technique. The cell cytotoxicity of BPA was measured by MTT assay. Classic cytogenetic technique was carried out for the investigation of chromosome damage. BPA, in addition ...

Watch folder

The screenshot shows the Mendeley Desktop application interface. A red arrow points to the 'Watch Folder' option in the 'Add' menu. The main window displays a list of documents under the 'All Documents' tab. The list includes columns for Authors, Title, Year, Published In, and Added. The 'Added' column shows dates in Persian (e.g., ۱۳۹۷.۰۵.۰۱).

The screenshot displays the Mendeley Desktop application. The top menu bar includes File, Edit, View, Tools, and Help. The 'Tools' menu is open, showing options: Install Web Importer, Uninstall MS Word Plugin, Check for Duplicates, and Options. The main window is divided into several sections:

- Left Sidebar:** Contains 'Mendeley' (Literature Search, Mendeley Suggest) and 'My Library' (All Documents, Recently Added, Recently Read, Favorites, Needs Review, My Publications, Unsorted, information prescription, information quality, Shari, R).
- Filter by Authors:** A dropdown menu showing a list of authors including ABBASI, M, Adams, Samantha, Aghajanjour-Mir, Seyed Mohsen, Aguarón, Alfonso, Aguirre, Marina, Ahadi, HS, Aizoaceae, Key, Akhavan-Niaki, Haleh, Alaei, M, Alaei, MR, AMINI, A, Andersen, Cathy M, Angel, Martin, Anthony, David C., Ariga, T, Ariga, Tadashi, and Armin, S.
- Documents Table:** A table with columns: Authors, Title, Year, Published In, and Added. It lists various research papers, including 'Feast for the Eyes: An Introduction to Data Visualization' by Brigham, Tara J.
- Details Panel (Right):** Shows details for the selected article 'Feast for the Eyes: An Introduction to Data Visualization'. It includes the authors (T. Brigham), journal (Medical Reference Services Quarterly), year (2016), volume (352), issue (2), and pages (215-223). It also contains an abstract and tags.

Type: Journal Article

Feast for the Eyes: An Introduction to Data Visualization

Authors: T. Brigham

View research catalog entry for this paper

Journal: *Medical Reference Services Quarterly*

Year: 2016

Volume: 352

Issue: 2

Pages: 215-223

Abstract:

ISSN: 0276-3869 (Print) 1540-9597 (Online) Journal homepage: <http://www.tandfonline.com/loi/wmrs20>
ABSTRACT Data visualization is defined as the use of data presented in a graphical or pictorial manner. While data visualization is not a new concept, the ease with which anyone can create a data-driven chart, image, or visual has encouraged its growth. The increase of free sources of data and need for user-created content on social media has also led to a rise in data visualization's popularity. This column will explore what data visualization is and how it is currently being used. It will also discuss the benefits, potential problems, and uses in libraries. A brief list of visualization guides is included.

Document details

The screenshot shows the Mendeley Desktop application window. The main interface includes a menu bar (File, Edit, View, Tools, Help), a toolbar with icons for Add, Folders, Related, Sync, and Help, and a search bar. On the left, there is a sidebar with 'Mendeley' options (Literature Search, Mendeley Suggest) and 'My Library' sections (All Documents, Recently Added, Recently Read, Favorites, Needs Review, My Publications, Unsorted, database design, information prescription, information quality). Below the sidebar is a 'Filter by Author Keywords' dropdown menu showing a list of keywords.

The 'Options' dialog box is open, displaying the 'Document Details' tab. The 'Document type' is set to 'Journal Article'. The 'Show fields' section lists various fields that can be displayed in the library view, with checkboxes for each:

- ☒ Title
- ☒ Authors
- ☒ Abstract
- ☒ Tags
- ☒ Journal
- ☒ Volume
- ☒ Issue
- ☒ Pages
- ☒ Year
- ☒ URL
- ☒ Author Keywords
- ☒ Files
- ☒ Hide from Mendeley Web Index
- ☐ Application Number
- ☒ ArXiv ID
- ☐ Chapter
- ☐ Citation Key
- ☐ City
- ☐ Code
- ☐ Country
- ☐ Date Accessed
- ☐ Day

The dialog box has 'OK', 'Cancel', and 'Apply' buttons at the bottom.

In the background, the main library view shows a list of documents. The visible entries are:

Shettleworth, S J	Do animals have insight, and what is insight anyway?

Mendeley web catalog

- مندلی کلیه رفرنس های وارد شده توسط کاربران را در فهرستی تحت عنوان **menedely web catalog** گردآوری می کند. الگوریتمی مفهومی رکوردها را تحلیل کرده و به مندلی این امکان را می دهد تا محاسبه کند که یک منبع واحد توسط چند کاربر وارد مندلی شده است. از طرفی جزئیات صحیح هر رکورد نیز شناسایی می شود. به این ترتیب اگر رکوردی توسط سه محقق وارد مندلی شده باشد و یکی از آنها جزئیات نام مقاله را اشتباه وارد کرده باشد، مندلی با دسترسی به اطلاعات صحیح، اشتباه را تصحیح می کند.
- کاربر این امکان را دارد که رکورد وارد شده خود را در کاتالوگ تحت وب مندلی غیر قابل مشاهده نماید. برای این کار از انتهای ستون سمت راست ، قسمت **other settings** گزینه **unpublished work** را مارک دار کنید.

Details | Notes | Contents

Abstract:
Information therapy is the prescription of information intended to help patients understand their health and their health care issues. Information therapy is not a new concept, but the increasing emphasis on patient-centric care, the use of electronic information technologies, and the interest of consumers in health information make the use of information therapy appear more feasible than in the past. This article reviews the background of information therapy, shows the link between information therapy and patient-centric care, and suggests steps for developing an information therapy program within a health...

A model for online consumer health information quality

Authors: S. B., M. L., Y. Y.J.

View research catalog entry for this paper

Journal: *Journal of the American Society for Information Science and Technology*

Year: 2009

Volume: 60

Issue: 9

Pages: 1781-1791

Abstract:

This article describes a model for online consumer health information consisting of five quality criteria constructs. These constructs are grounded in empirical data from the perspectives of the three main sources in the communication process: health information providers, consumers, and intermediaries, such as Web directory creators and librarians, who assist consumers in finding healthcare information. The article also defines five constructs of Web page structural markers that could be used in information quality evaluation and maps these markers to the quality criteria. Findings from correlation analysis and multinomial logistic tests indicate that use of the structural markers depended significantly on the type of Web page and type of information provider. The findings suggest the need to define genre-specific templates for quality evaluation and the need to devel...

This article describes a model for online consumer health information consisting of five quality criteria constructs. These constructs are grounded in empirical data from the perspectives of the three main sources in the communication process: health information providers, consumers, and intermediaries, such as Web directory creators and librarians, who assist consumers in finding healthcare information. The article also defines five constructs of Web page structural markers that could be used in information quality evaluation and maps these markers to the quality criteria. Findings from correlation analysis and multinomial logistic tests indicate that use of the structural markers depended significantly on the type of Web page and type of information provider. The findings suggest the need to define genre-specific templates for quality evaluation and the need to develop models for an automatic genre-based classification of health information Web pages. In addition, the study showed that consumers may lack the motivation or literacy skills to evaluate the information quality of health Web pages, which suggests the need to develop accessible automatic information quality evaluation tools and ontologies.

Introduction

A widely used general definition of information qual-

Internet Project estimated that at least 75% of U.S. Internet users have searched for health information online, with 8 million Americans seeking health information online in a typical day (Fox, 2006, 2008). We were not surprised to learn that health information seeking and participation in online support groups are among the most common activities performed by patients. It is estimated that 63 million Americans visited health-related blogs and online community support groups, as well as ratings sites for prescription drugs and other health materials (Lewis, 2008, p. 16). With the aging of the country's population, leading to an increased need for healthcare information, and with healthcare providers such as the government, hospitals, and foundations increasingly moving information services to the Web, consumer use of online health information has also increased (Fox, 2006).

Online health information supports decision making for patients, caregivers, and healthcare providers. Online health searching helps in clarifying unfamiliar medical terms used in diagnoses, finding support groups, and locating possible alternative treatments (Sillence, Briggs, Harris, & Fishwick, 2007). Users of online health care information can include patients with chronic conditions, who are often expected to manage their diseases on their own between planned

Pages: 19-29

Abstract:

Bisphenol-A (BPA) is an industrial xenoestrogen used widely in our living environment. Recently, several studies suggested that BPA has destructive effects on DNA and chromosomes in normal body cells via estrogen receptors (ER). Therefore, BPA could be considered as an important mediator in many diseases such as cancer. However, there are still many controversial issues which need clarification. In this study, we investigated the BPA-induced chromosomal damages in MCF-7 cell line, ER-positive and negative amniocyte cells. Cytotoxicity and genotoxicity effects of BPA were also compared between these three cell groups. Expression of estrogen receptors was determined using immunocytochemistry technique. The cell cytotoxicity of BPA was measured by MTT assay. Classic cytogenetic technique was carried out for the investigation of chromosome damage. BPA, in addition ...

Journal: INTERNATIONAL JOURNAL OF MOLECULAR AND CELLULAR MEDI...
Year: 2016
Volume: 5
Issue: 1
Pages: 19-29
Abstract:
Bisphenol-A (BPA) is an industrial xenoestrogen used widely in our living environment. Recently, several studies suggested that BPA has destructive effects on DNA and chromosomes in normal body cells via estrogen receptors (ER). Therefore, BPA could be considered as an important mediator in many diseases such as cancer. However, there are still many controversial issues which need clarification. In this study, we investigated the BPA-induced chromosomal damages in MCF-7 cell line, ER-positive and negative amniocyte cells. Cytotoxicity and genotoxicity effects of BPA were also compared between these three cell groups. Expression of estrogen receptors was determined using immunocytochemistry technique. The cell cytotoxicity of BPA was measured by MTT assay. Classic cytogenetic technique was carried out for the investigation of chromosome damage. BPA, in addition ...

Journal: **ARCHIVES OF OSTEOPOROSIS**

Year: 2016

Volume: 11

Issue: 1

Pages:

Abstract:

The Summary A high prevalence of hypovitaminosis D has been reported in cancer patients. Low levels of 25-(OH)-vitamin D were found in 158 of 162 (97.5 %) inpatients with breast, lung, and colorectal cancer under active treatment, with severe deficiency (<20 ng/ml) in 77.2 % and moderate deficiency (20-30 ng/ml) in 20.4 %. Purpose A high prevalence of vitamin D deficiency has been reported in cancer patients. Nevertheless, vitamin D serum levels have been checked in few patients. Information about the frequency of hypovitaminosis D in cancer patients in Argentina is unknown. The aim of the study was to assess the frequency of vitamin D deficiency in patients with breast, lung, and colorectal cancer. Methods A prospective observational study was designed for cancer patients admitted to the general ward in 2014. The patients included had breast, lung, and colorectal cancer. All of t...

Abstract:

The second edition of the textbook is planned to become a MRW-textbook. It will be written by 389 eminent pediatricians and scientists from leading university hospitals and health centers in North America, Europe, Asia and Australia. Written with more than 425 chapters, the book will encompass virtually all pediatric subspecialties, covering every pediatric disease and organ system. Its strong clinical focus with a problem based approach will help practicing pediatricians, residents, medical students as well as family practitioners to manage sick children in a practical way, based on scientific evidence. Thus, it will become a valuable reference and resource for all health care practitioners dealing with pediatric patients.
